Dear Ms. Finkel;

I submit to you these statements for your review, copies forwarded to the regional US Treasury Office. I had planned to be at the creditors meeting; however, I will be recovering from heart surgery.

As advocate for the creditors, I employ you to take the opportunity to review the filing in the cases below submitted to the courts, between the entities I presented, investors and vendors have lose over 15 million dollars. You may want to consider this letter as a whistle blower letter. I have reason to believe a substantial amount of information been omitted especially the area of income, corporation ownership and envelopment, parallel corporate entities. Rappaport are no stranger to the bankruptcy court.

Case 09-18320-elf Doc 1 Page 29

18. Nature, location and Name of business

Background:

Mr. Rappaport claims to have more than 30 years experience in the initiation and development of successful businesses including capital acquisition and business operations. He is also formerly Founder, Chairman and CEO of Medeikon Corporation, a medical device company using optical technology for cardiovascular applications, where he has raised more than \$10 million in startup capital. Mr. Rappaport has held several CEO and Chairman Positions of several start-up companies, Qusion Technologies Inc.,

Founder and Chairman of Technology Capital Funding Group, and CEO of Optical Diagnostics Inc.

The above resume of Mr. Rappaport is far from true; he never raised 10 million dollars for Medeikon. Yes, he was the chairman & CEO, which failed, for lack of funding. The investors, 3 million in stock issue investors, 3.25 million of investor with convertible promissory notes and 1.5million in promissory notes lost there money. As of today Mr. Rappaport walked away from Medeikon, another failed business which he has failed his corporate obligation to legal close or notify government, creditors and investors. No company has Mr. Rappaport been involved with and solicited investment capital came to market or was purchase, they failed or funding ended. Secured lien holders of Medeikon now attempting to collected corporate asset in his possession, two employee have witness him and Dr. Katz loading his truck with furniture, & electronic test equipment.

Here another example of the Rappaports management style, see below the parallel operations, which the Rappaport's claim no involvement.

On April 7, 2009, the following companies were formed:

Lifestyle Plastic Surgery, Inc. Delaware corp.

Lifestyle Plastic Surgery 1, LP (complex structure) Rappaport General Partner

On April 15, 2009 the following company was formed

Lifestyle Management Group, Rappaport acting on behalf of the General Partner

Corporate address 1127 Main St, Warrington Penna., Tel ph: **1.215.491.2000**

Valley Square Plastic Surgery LP, Current Name, filed Chapter 11, **4/14/2009**, Granted chapter 7, 10/8/2009

Case 09-12715-sf

Valley Square Aesthetics LP, Prior name

Valley Square Plastic Surgery Center LP, Prior name

Valley Square Plastic Surgery Management LP, Prior Name

Corporate address, **1127 Main ST. Warrington, Pa**, Tel Ph: 1.215.491.2000

Seven (7) days prior to filing Chapter 11, Lifestyle Surgery was formed, once Valley Square filing was entered the company continued to operate under the name of Lifestyles. Attached is supportive marketing information, web information remained the same content but heading and name changes. Both Fred and Vicki Rappaport were involved in the day-to-day operation. Vicki Rappaport is listed Co-Founder in Valley Square, and Executive Director in Lifestyles Healthcare Group. In addition, the small business operating reports submitted during the 11 process is nothing more then a **fairy tale**. No earning information was required from lifestyle during this period, same business, different name everything else is the same.

Some secured assets the court granted relieve from the stay were in storage when the sheriff arrived to collect them. The secured items (Lasers) removed from storage and back at **1127 Main St**, in service, (see attached marketing information). Once again, all of the Valley Square limited partnership investors lost there investment money. Secured

creditors were unable to obtain secured property. Now that, Lifestyle has gained the assets at the expense of the limited partners and the vendors, there is no major overhead but increase profits. So there is no misunderstanding the State of Pennsylvania considers Valley Square Plastic Surgery, a doctors office, a true surgery center license requires inspection for doing procedure which require anesthesia.

Here the last project which Mr. Rappaport is Chairman and CEO of **Lifestyle Healthcare Group** (see attached) another investor driven venture. Located at **1127 Main St. Warrington, Pa. (note this address & phone #)**. The new project more complicated then the above will require major investment capital, it seems investors have already invested \$150,000. More then likely the Rappaports income come from investor capital, management fees, expenses, and patient's cash. I can only image Mr. Rappaport with a Medicare number what will happen. The plastic surgery operation is cash base the new project will be insurance driven.

The information above support parallel operation along with complex corporate structure (LP), which tends keep insiders in controls and placing investors at disadvantage. It should be noted money claims made by Fred Rappaport & Vicki Rappaport should not be taken at face value. The above also support Rappaports activities envelopment in the above entities, which has cost investors over 15 millions. The activities of these entities require additional investigation.

At the end of day here what going to happen, Rappaport's bankruptcy filing will be pushed thru the system. Personal guarantee to vendors, banks and investors. Will be forgiven. As for parallel operation, complex documents used to solicited investment, knowing no government agency take the time explore or ask serious questions, but rather rely on individual reply under oath.

Here a prefect example of misrepresentation, information supplied on the Mean Test is actually insulting to the reader. Individual claiming to have no income other then Social Security to support \$2600 plus shortfall, which the mean test fails to take into consideration exempt items, such as BMW which is exempt, car insurance required by the State of Pennsylvania, household insurance which is required by the lender. If you add a lease car, car and house insurance your now \$3600 a month. It assumed the exempt items are current or some agreed upon payment arrangement, if so without a job or income.

Frank & Harriet Garton Creditors.

In a series of personal loans to a family member, Fred & Vicki Rappaport totaling \$45,000.00. Unsecured loans three (3) \$5,000
Loan to support his household while Medeikon was starting up. A personal loan of \$22,000for a purchase of land with the condition to repaid when the land was sold. The problem Fred & Vicki sold the land in 11/2007 and walk off the settlement table with \$174,000. We found out about this last month November 2009 when I review in bankruptcy claims, which he list a profit of 26,000. I now have a copy of the settlement

statement, which verifies the amount, Fred & Vicki stole \$22,000. There another loan of \$3,000 to Fred for his stepson school tuition. In halfhearted attempt to pay us back, given, two checks totaling \$8,000, which are worthless see the attached, may be a criminal offense. These people live off other people's money; have no shame to steal from family members. I truly wonder if they have any respect for the government.

Sincerely

Frank Garton

This place is a rip off. I paid over 7 thousand dollars for a tummy tuck and was not satisfied. The doctor waited to long to take the stitches out. When he did they were almost healed with my skin causing some skin to come out when he pulled the stitches out. So now I have a little ball of skin on the outside of my incision. When I needed more work done because of this they tried to charge me another seven hundred dollars after saying I wouldn't be charged if more work needed to be done. This is after a recommended someone who got a procedure at the same time I did. I would never recommended this place to anyone.

- Erratum

In the Editorial from Dr. Foad Nahai which appeared in the September/October issue of ASJ (2009;29(5), page 443), Dr. Nahai's "Safety Diamond" description was incorrectly attributed to The American Society for Aesthetic Plastic Surgery in the references. The original description of the "Safety Diamond" actually appeared in reference 6, Clinical Risk (in press). (Source: Aesthetic Surgery Journal)

- Erratum

In the July/August issue, 2009;29(4), an inadvertent data error was made on page 297, Figure 3. The caption was incorrect in stating that "58% [of surgeons] reported performing revisions in 58% of their cases." It should have read: "58% [of surgeons] reported performing revisions in 0% to 5% of their cases." (Source: Aesthetic Surgery Journal)

- Breast Reconstruction

Welcome to Today in Plastic Surgery (T.I.P.S.) The official podcast of the American Society of Plastic Surgeons featuring a candid discussion about breast reconstruction.

Lifestyle Healthcare Gro

The vision that drives our Lifestyle Center, delivering general medical care, pleasant environment where expertise, paramount.

In order to provide the best possible care, we have developed multi-specialty facilities. Our centers will offer outpatient surgical options.

Over the last 10 to 15 years the number of outpatient procedures has increased by over 300% while hospital inpatient admissions have decreased by 14%. Why have these outpatient procedures increased? For many reasons, but mostly because patients prefer outpatient centers. They provide for a more comfortable environment, shorter wait and recovery times before discharge, and less disruption for family members. New technology has made many procedures easier, quicker, and with less down time. Procedures that used to be performed in the hospital can now be performed on an outpatient basis.
